

RESUME

Personal Information

Name: Michael Sun Cell phone: (760)-833-0056 E-mail: sunla03@gmail.com
U.S. Green Card holder

Profile

10+ years of working experience in software development sector
10+ years in storage industry plus hands-on experiences on test automation using Python/KSH
3 years of hands-on coding web apps on both frontend and backend (javascript/python)
Extensive experiences on UNIX/Linux platforms. Oracle OCP DBA, Microsoft MCDBA, and MCSE+I
Rich experience working with global teams and strong at building and growing teams
Self motivated. Work smart with strong execution, keep curious and learn quickly

Work Experience

2017-04 - 2019-10 Lead Software Engineer, Beijing Laimeet Technology Co., Ltd

As the technical lead and architect, built the whole structure for both frontend and backend
Coded frontend of our social network web app as well as guided the engineers on backend
System tech stacks: H5/Javascript/Vue vs Nginx vs Python/Django/Rest vs PostgreSQL
Mobile features: PWA, F7, Cordova as well as SPA/Webpack, Gitlab as code repository
MVP(Minimum Viable Product) was released in one month
Prototyped e-commerce/social app using H5/JQuery/Bootstrap/Django/Python/PostgreSQL
Explored the Microservices architecture using javascript/Vue + java/spring

2011-09 - 2017-03 Senior Manager, Software Development, Oracle

Fully responsible for automation test on Oracle Solaris as well as ZFS Storage Appliance
Develop automation test suites in KSH, Python and Selenium Webdriver
Successfully led the transformation from Ksh based development to Python
Initiated, prototyped and successfully delivered the first BUI automation test suite, which shortened the test cycle from weeks to hours
Successfully led the team to transform from waterfall development model to Agile model
Grown the team from 6 to 30+ in size, including one manager and three team leads

2009-07 - 2011-08 Lead Software Engineer, Beijing TahooTech Co.,Ltd

Acted as SE to provide software solutions and IT services for manufacturing industry
Reached out 100+ enterprise customers and completed 20+ demo and presentations to potential customers across 7 provinces
Provided onsite support on software installation, troubleshooting and upgrades

Used VC++ to customize the product upon customer's needs

2006-10 - 2009-07 Principal SQA Engineer, Symantec (Veritas)

Led the integration team to test Veritas NetBackup, SF and Symantec security products.
Built the first website for project management throughout global integrations teams
Successfully transformed the team from waterfall model to agile model
Worked globally with program manager, developer manager, QA manager
Acted as the key member of strategic planning committee of China Development Center

2003-02 - 2006-10 Senior Quality Assurance Engineer, CA Technologies

Led database and device QE team testing on CA storage product, ARCServe
Provided TOI on databases (Oracle/DB2/Sybase/Informix/Ingres) to new hires
Proposed and Successfully implemented Real World testing, greatly improved the product quality
First engineer who began database testing and built the database team

2001-11 - 2002-12 Software Engineer, IBM China Development Lab

Tested IBM e-business solution Websphere Commerce Suite on UNIX and Linux platforms
Developed automation build scripts using Shell
First engineer who completed WCS cluster system verification as well as the guide revision
Technical support on Oracle and DB2 databases

1996-03 - 2001-11 Software Engineer, Radar Institute

Developed client/server software using C/C++ on UNIX(RS/6000) and Windows
Developed online OA website using ASP
Developed identity system with QR code using VC++
Developed GP-IB software for instrument control using VB
Maintained the legacy software system (Pascal) running on the DEC UNIX.

Education

Fordham University / Peking University,
National University of Defense Technology,

MBA
Bachelor, ElectroMechanical
